

**Cablcon Web Based  
Fiber Optic Test Reports**  
[fibertest.cablcon.com](http://fibertest.cablcon.com)

In an effort to better support the industry and be more environmentally responsible, Cablcon provides assembly test results online, rather than send paper printouts in all assembly shipments.

1. Packing Slips will have a QR Code showing the website to access test results:

2. Once on the [fibertest.cablcon.com](http://fibertest.cablcon.com) website, please find the Production Work Order (PWO) number that is printed on the label of every assembly:

3. Enter this number into the box as shown below:

4. After information is entered, press the search button to retrieve the results. An example of the results page:

SEQUENCE	FIBER	IL	REF. A	REF. B	WAVE
1	1	0.000	75.000	60.500	1550 nm
1	1	0.440	75.000	61.000	1550 nm
1	1	0.390	75.000	60.300	1550 nm
1	2	0.480	75.000	63.400	1550 nm
1	2	0.350	75.000	60.800	1550 nm
1	2	0.120	75.000	60.300	1550 nm
1	3	0.390	74.800	60.300	1550 nm
1	3	0.470	75.000	60.900	1550 nm
1	3	0.180	75.000	66.000	1550 nm

5. From here you can enter a new PWO, print the results, email as a PDF attachment, or export to Excel. If no results are returned, please try again or [contact Cablcon](mailto:contact@cablcon.com)'s customer service department at 800.969.9220.
